AMERICAN MADE PRODUCTS

The Cal Spas story begins 44 years ago at a crowded county fair. The year was 1978 and California Acrylic Industries was a Pomona, California based pool builder in need of a way to exhibit a large variety of pool designs in a small space. To solve this dilemma, the company created small scale versions of its formed acrylic pools and put them on display for customers. The miniature pools sparked interest and the company began to receive special requests for acrylic hot tubs. A year later, with the company's hot tub business growing, California Acrylic Industries took a leap of faith. The company stopped building pools and focused full-time on the hot tub business-and Cal Spas was born.

Today, the celebrated hot tub maker is world renowned as the #1 Global Manufacturer of Home Resort Products. Cal Spas produces premium collections of lifestyle products from its headquarters in Pomona, California and distributes worldwide through a network of specialty dealers.

The Cal Spas brand family of products includes Cal Spas hot tubs and swim spas, and Cal Flame high-end outdoor grills and hardware, barbecue islands, outdoor fireplaces and firepits. From our humble beginnings selling swimming pools to our future in the homes of families around the world, Cal Spas remains committed to giving you new ways to enjoy the outdoors at an unbeatable value for any budget. Let the Cal Spas story continue with you.

From our family to yours, bring home the integrity, craftsmanship and fun of Cal Spas today!

Cal Exclusives

CAL SALT FILTRATION SYSTEM

Cal Salt Filtration Sanitation System produces a pure form of chlorine by electrolysis of salt (NaCl) providing pure sanitized spa water. Once salt in the water is converted to chlorine, bacteria is killed and the chlorine converts back to salt, the process repeats. Importantly, the salt concentration used is very low (less than that in a human tear).

TARGETED MUSCLE RELIEF THERAPY

Our patented ATS Plus seat features a dedicated pump & control panel providing a personalized massage with nine distinctive pressure levels. The jets can be programmed to emit various massage patterns to suite your comfort level. Not only do you enjoy premium personalized hydrotherapy, you will also save on electricity costs by targeting your hydrotherapy experience.

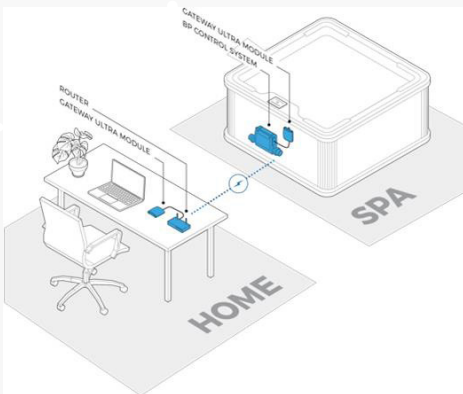

Cal Connect

Full Control, Anywhere You Go

The new Cal Connect Module allows for full control and monitoring of your spa straight from your mobile device. Check the status of your filters, temperature, and lighting whenever convenient. Our new radio frequency development allows for maximum distance while maintaining a reliable connection over traditional Wi-Fi Controllers.

With all of this information available for quick and easy reading, one can monitor all functionalities. Upon service intervals, Cal Connect will even recommend service dealers in your area to help keep your spa in perfect shape for years to come!

Cal Connect is compatible with both Google Assistant and Amazon Alex allowing for a truly hands-free, hassle free experience.

RF vs. WI-FI

Cal Connect uses an RF signal that has a very broad frequency range and goes thru walls, water, and other structural obstacles.

A WI-FI signal operates on a much narrower frequency that is interfered with by any line of sight barrier and most importantly, water.

Pure Water Filtration

Cal Spas advanced, industry-leading water filtration and cleaning systems keep your tub

Bio-Clean Antimicrobial Filter with TeleWeir Gate

Filters are designed to be both easily accessible and to allow for balanced filtration. A special antibacterial agent within the fabric of each Cal Spas filter helps to ward off growth of microbes and bacteria. A TeleWeir Gate prevents debris from re-entering the spa's water system. When you choose a Cal Spas tub, the days of fumbling for awkwardly placed filters and navigating complex chemical balances are over. In fact, managing the waters of your tub is almost as stress-free as easing into it.

Our PureSilk and Twin PureSilk Ozone Purifiers Will Keep Your Spa Clean and Fresh!

PureSilk Ozonator

The Eco-friendly PureSilk Ozonator by Cal Spas features exclusive moisture-sensing technology that instantly eliminates bacteria through exposure to Ozone minimizing the use of costly chemicals required by other tub brands.

VENTURI INJECTOR

Mazzei Venturi Injector

Mazzei injectors are a unique, patented design that maximizes injector efficiency, suction capacity & mixing capabilities. Trouble free, non moving parts design.

MIXING CHAMBER

Mazzei Flash Reactor / Mixing Chamber

Designed to Promote Re-direction of Gas Mixture High Mass transfer efficiency with minimal contact time.

Seating

Ergonomic Lounger Seat

Ergonomic Lounger Seat: For those eager to recline in bubbling spa waters and let the worries of the world fall away, the Ergonomic Lounger Seat provides a subtle yet potent hydrotherapy massage.

Quad Neck Jets and Multi-Jet Seat

For active athletes, and for professionals who work seated or on their feet all day, Cal Spas designed the Quad Neck Jets and Multi-Jet Seat specifically with massage therapy in mind.

Soft Tissue Massage Seat

For extremely active individuals in the market for a home spa that offers a full body massage, the Soft Tissue Massage Seat is designed for you. The larger jets in the Soft Tissue Massage Seat are specially-designed to suppress inflammation and accelerate cell recovery for rapid healing.

Precision Muscle Relief Therapy

At Cal Spas, we understand that many of our customers seek an ultimate hydrotherapy experience for the particular demands of their body. From our innovative contoured seats and strategically positioned jet systems, each of our spas offers a full body hydro-massage simply sitting in different areas of your home spa.

Adjustable Therapy System Plus™

Looking not just for a splendid soak, but customizable hydrotherapy for your specific pain area? The Cal Spas patented ATS Plus allows spa users to choose from nine distinctive pulsating levels. This system can be programmed to give an enjoyable massage at your desired level of comfort. A simple control panel allows users to quickly change ATS Plus settings.

Footwell with Tornado Jet

Cal Spas understands that the feet are the foundation upon which the body stands. That's why the Footwell features powerful dome jets to target the sorest part of the feet and massage away aching pain.

Unsurpassed Jet Varieties

Cal Spas the industry's most dynamic and thorough selection of spa jet faces — each of which have a specialized function that can help you create the best tub experience. Each jet option is positioned in a configuration that delivers effective hydrotherapy massage solutions to specific areas of the body. Users can rotate each jet to the On or Off position for a more personalized spa session every time the ease into the warm waters of their tub.

Lounge Seat

Sink deep into the bubbly waters of your tub with the Lounge Seat, constructed with specially positioned spa jets that target both the upper and lower body for soothing hydrotherapy sessions.

Bench Seat

Accommodating your entire party is easy when you select the Cal Spas Bench Seat. Side-by-side seating also for ease of movement while enjoying close proximity to your fellow guests.

Cool-Off Seat

Want to ward off the chill you might get entering or exiting your spa? You can with Cool Seat, our cleverly designed transition seat that keeps spa users half-immersed for a proper transition from one temperature to another. (Available only on Avalon, Cancun, Kona, Baja, Costa and Hawaiian Spas).

Cal Spas Jets

EXCLUSIVE CANDY CANE JETS

Featuring a smooth black and stainless steel Candy Cane patented design. Entertain family and friends in style. Focusing on deep tissue massage, soft tissue massage, and medium tissue massage you are guaranteed to be satisfied.

EXCLUSIVE VELOCITY JETS

Our different types of jets offer many benefits to your health. The Velocity jets are positioned in various configurations to deliver unique hydrotherapy massages that pinpoint specific areas of the body.

Ultimate Performance

WHISPER HOT TITANIUM HEATER

Cal Spas remains committed to innovation, which is why we're so proud to offer our custom-developed WhisperHot Titanium Heater across our entire spa line. While the temperate, enveloping waters of your Cal Spas tub are so comfortable they might feel like they're warmed geothermally, titanium is the key to the soothing warmth of Cal Spa waters. Even with today's salt sanitizing systems, there is no other material that improves heater longevity like titanium. Titanium contains no iron and so it never rusts or corrodes.

QUIET CLEAN 100% FILTRATION SYSTEM

Available as an optional feature across our entire line of tubs, Quiet Clean 100% Filtration System is comprised of a 24-hour circulating pump that constantly and quietly heats the water, so your luxurious home spa is ready to comfort you whenever you need it. The Quiet Clean system can help reduce energy costs by minimizing pump operation when your tub isn't being used.

www.calspas.com

Smart Control

While some tubs come only with an on/off switch, Cal Spas offers a dynamic hydro-therapeutic experience in each design. Our tubs' low-speed settings are ideal for filtration and long, relaxing soaks while our high-speed settings offer comforting, pressurized massage to overworked muscles and joints. Cal Spas hot tubs efficiently increase their luxurious temperatures with state-of-the-art 5.5 kW Titanium heaters that provide years of reliable heating performance.

CAL SPAS TOUCH 4

Stylish Entertainment

Cal Spas intuitive operating controls let you alter the look and feel of your hot tub with easy-to-use touch button controls. Underwater LED lighting allows you to set the mood for your evening soak while Beam-lite LED Cabinet Lighting adds ambiance to your spa's exterior and surroundings.

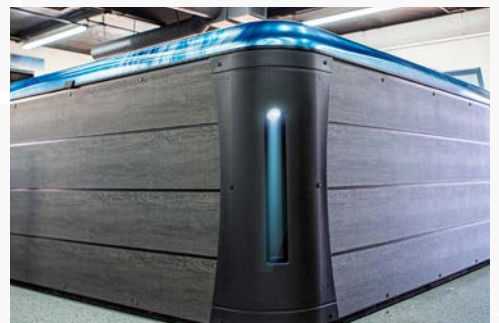

Premium LED Spa Lighting

Whether you're setting the tone for a romantic evening or entertaining family and friends, Cal Spas array of LED lighting options can help craft the perfect ambiance. LED lights are available across the perimeter of the spa as well as on valve jets and cup holders. Your LED lighting scheme can also be uniquely programmed to a singular color or to rotate across a variety of different shades.

BEAM-LITE LED Cabinet Corner Lighting

Add a unique accent and personalized look to your home resort space with Cal Spas Corner Cabinet Lighting. Powered with energy efficient LED lights, the BEAM-LITE is a cost-effective way to personalize and beautify the look and feel of your hot tub.

LED Waterfall

Cal Spas waterfall feature allows you to further recreate a peaceful, tropical environment in your home resort space with your choice of classic cascade or vertical fountain styles. Relax as the melody of the water drops landing atop the surface of your spa waters in concert with the delicate sounds of the jets. You can even enhance the look and feel of any waterfall with custom LED lighting options.

Freedom Sound Bluetooth

The Cal Spas Freedom Sound package comes complete with a Bluetooth-compatible high range speaker system with crystal-clear sound across 2", 4" or 6" weatherproof speakers. Choose our High-Power Subwoofer with Waterproof Marine-Grade Speakers for the ultimate audio experience while you relax or entertain. Connect your smart device for high fidelity playback across years of enjoyment.
